

datecode genie®

# A family of solutions

Chef's knife, paring knife, bread knife— each works best for a specific use. The same principle applies to the DateCodeGenie® enterprise of solutions.

One  
2" Printer

## DateCodeGenie® X2

Includes one 2" printer encased in stainless steel housing for added protection from everyday use.

SKU DCGX2  
SKU DCGX2-C (USB accessory compatible)

Two  
2" Printers

## DateCodeGenie X22

Two 2" printers allow for double the label production and increased workflow. Stainless steel covering protects the device from moderate wear-and-tear.

SKU DCGX22  
SKU DCGX22-C (USB accessory compatible)

2" Printer +  
3" Printer

## DateCodeGenie X23

Stainless steel housing holds a 2" and a 3" printer, which allows for a broader range of label creation without having to retool the printer.

SKU DCGX23  
SKU DCGX23-C (USB accessory compatible)  
Only available in the US & Canada

## DateCodeGenie 2.0

The single printer in this model accommodates both 2" and 3" labels, which drop in for quick, easy reloading. A stainless steel cover provides extra protection for the screen.

SKU DCG2.0  
SKU DCG2.0-C (USB accessory compatible)  
Only available in the US & Canada

## DateCodeGenie Fit

This compact, wall-mounted device stays up and out of the way in tight spaces. Its detached printer handles 2" and 3" labels that drop in for easy loading.

SKU DCGFIT  
Only available in the US & Canada

## DateCodeGenie Lite

This portable solution works perfectly for smaller spaces. Its 10" tablet includes a protective silicone case. And its stand-alone printer easily handles 2" and 3" labels.
